## Hearts United in Love

With the hot summer months approaching, we may start to wonder about the effects of climate change, but I would like to focus a little on the extreme culture change we are currently experiencing. Just as the climate change is anticipated to continue at an unprecedented rate but is not really that noticeable by us individually, so too, the culture change is occurring at an unprecedented rate and is not clearly perceivable either.

In the Liturgy of Hours Office of readings, Psalm 95 is repeated daily which tells us how God had endured the Israelite people for forty years and that they are a people whose hearts went astray and that they did not know His ways and that He swore in His anger they would not enter into His rest.

I recently reviewed the clients we have served over the past two months and noted that 73% of those with children in the household were single parent households. The dad was not present in the home. In addition, of the remaining 27% that did have a two-parent household, the majority of these were not married.

This is a significant change from the culture over the past 50 years. Clearly it is important that children have both parents in the household. I thought it was interesting that the word “family” is used 312 times in Scripture, which reflects its significance and presence throughout our faith history.

I believe that it is also important for children to see

*I eventually came across a prayer to the Sacred Heart of Jesus from St. Margaret Mary Alacoque which asks Jesus to place our weak hearts in His Own Divine Heart*

noticed how difficult it is to guard my own heart, to not let it go astray. In addition, I have come to realize how little control I actually have over my heart. It became clearly apparent that I needed God’s help to keep my wondering heart in check. I eventually came across a prayer to the Sacred Heart of Jesus from St. Margaret Mary Alacoque which asks Jesus to place our weak hearts in His Own Divine Heart, continually under His protection and guidance, so that we may persevere in doing good and in fleeing evil until our last breath. This simple prayer has allowed me to become more singularly united with Jesus in love in a very special way.

In today’s world, with the culture change rapidly occurring throughout the world, it is increasingly difficult to tell the difference between right and wrong; what God would want us to do. Satan tries to cloud things by mixing good with evil by telling only half-truths as he did when he told Eve that if she ate of the fruit, she would surely not die.

But how can we really know what course to take? We cannot simply do what everyone else is doing. We cannot

their parents praying. This is fundamental to the growth of their faith. I often remember riding in the car with my grandparents and they would ask me if I would join in praying the rosary with them on the drive. An ASC Sister used to tell me how she remembered her dad staying up late praying. Family prayer is the foundation for a child’s faith life and helps foster vocations.

Is climate change for real? Is there anything we can do to change it? Is it something to be feared or concerned about? We might ask these same questions about the culture change.

allow culture to continue to change unchecked. We have to discern issues and courses of action for ourselves and discernment is not easy at times. We know that Satan has no patience and loves to create dissension, so it would seem prudent that two important virtues to keep in our quiver when dealing with his deceptions are patience and peace. These two little virtues are sure ways to com-

bat his impatience and attempts to create dissension. I pray that all of us may be granted the Divine virtue of Patience and that we allow God's Peace to be our guide.

May we all surrender our hearts to the most Sacred Heart of Jesus for His protection & guidance. May our lives be a true light to the world.

George

## COH's response to Covid-19

The pandemic has now been with us for over a year. When the virus first started, we closed our doors and provided very little assistance as many people had received the first round of the stimulus checks and they could not be evicted due to the Governor's mandate and their utilities could not be turned off.

In June, we started to provide assistance via telephone interviews and had a waiting list of up to 150 names to call at one time. Over the next several months, we made some minor changes in our telephone interview process which allowed us to get the list to a more manageable number of around 30 names. For the next nine months, our phones literally were ringing off the hook. At any one time, we had hundreds of people trying to call in simultaneously for assistance. Our staff and volunteers were basically non-stop busy.

The assistance we provided through the nine months ending March 31, 2021 amounted to \$1,172,000 for 2,375 households, which is \$215,000 more than the assistance we provided for the nine months ending March 31, 2020 of \$956,000 for 2,422 households. The number of households we were able to serve via telephone calls remained about the same as we had provided prior to the pandemic, but the amount of assistance increased by 20% which reflects the many households we were able to help with several months of rent assistance as they were so far behind.

I sincerely appreciate and recognize all you donors who helped make this possible and the Center of Hope staff and volunteers that worked so diligently during these stressful times to make this possible. Thanks!!!!!!!!!!!!!!!!!!!!

# Because You Cared

For the past four months, the Center of Hope prevented 1,008 families from having to experience homelessness. Included in those families were 2,207 persons. \$493,000 was dispersed for rent, utilities and emergency needs.

Utility assistance for Project Deserve of \$86,000 was provided for 467 households.

Due to Covid-19, donations of food and other personal care products have been very minimal.
